

# SECURE YOUR ORGANIZATION WITH DATTO'S COMPREHENSIVE MDR SOLUTION

To stay ahead in today's ever-evolving world of cybercrime, it's essential to establish your defenses with the best tools available. By leveraging Datto Managed SOC's robust managed detection and response (MDR) capabilities, along with the proven malware efficacy of Datto AV and Datto EDR, you can implement a multilayered security strategy that keeps your business protected around the clock.

Here's how Datto Managed SOC, Datto EDR and Datto AV seamlessly complement each other to provide unparalleled security.

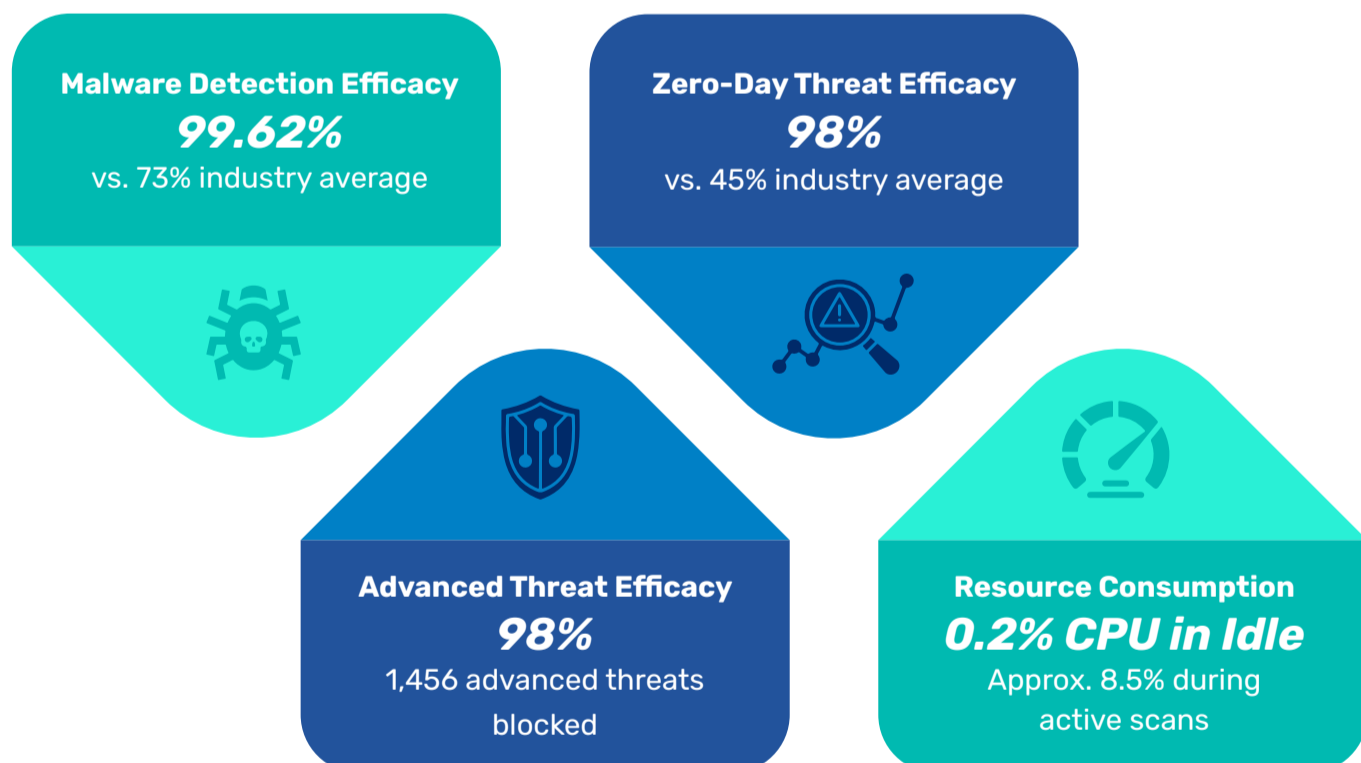

## COMPREHENSIVE VISIBILITY WITH THE XDR PLATFORM

Datto Managed SOC uses the RocketCyber XDR platform enabling complete visibility across endpoints, networks and the cloud, along with the ability to ingest data from various security solutions to provide centralized alerts and advanced, layered threat protection.

## BETTER TOGETHER FOR DEFENSE-IN-DEPTH

Datto AV and Datto EDR seamlessly combine with Datto Managed SOC. They underwent rigorous review by Miercom, a global leader in cybersecurity testing, setting a new industry standard.<sup>1</sup>

## SUPPORT FROM EXPERT CYBERSECURITY ANALYSTS

The Datto Managed SOC team monitors alerts from RocketCyber, Datto EDR, Datto AV, email security and firewalls, keeping your business safe and reducing false positives through human evaluation

## 24/7 MANAGED DETECTION AND RESPONSE

Datto's veteran SOC analysts work around the clock, actively threat-hunting to respond to all forms of malware in your environment. Don't settle for inadequate protection. Upgrade your security with Datto Managed SOC, Datto EDR and Datto AV today!
